5. Application figures are for all postgraduate applications submitted to the 2019-20 application cycle, excluding applications to programmes admitted by the Graduate Admissions Office that were withdrawn within the terms of the 14 day cancellation policy².
6. Confirmation figures show those applicants who satisfied all of their conditions set out in the offer stage, and who then subsequently registered and took up their places on the course. Applicants who were confirmed but subsequently did not take up their University place are excluded.³
7. Home/EU/Overseas fee status is defined only at the point of offer as this classification is dependent on a variety of factors that require independent assessment based on the [UKCISA guidelines](#). For the purpose of estimating numbers of applicants within fee status categories who did not receive an offer,

¹ University Partner Institutions are external institutions where postgraduate students registered at the University undertake specialist research. Further information can be found [here](#).

² As of 18 May 2020, there were 42 applications that were withdrawn within these terms.

³ As of 18 May 2020, there were 95 applicants confirmed for admission who did not subsequently arrive at the start of term.

the fee status has been assessed based on primary citizenship only. Applicants with islands or refugee fee status have been included for this broad reporting purpose as Overseas.

8. Where a table reports on personal or identifiable characteristics, counts of applicants under five have been suppressed to <5. Any accompanying proportions are shown as <[*proportion of 5 applicants*]. The column totals remain the same.

In Tables 2.3a and 2.3b (Applications, Offers and Confirmations by Declared Ethnicity), ethnicity categories with counts of applications, offer or confirmations under five have been aggregated into the 'Other Ethnic Background' category.
